Fostering in Islington

We feel that it is particulary im-
portant to promote sevicees that
place the welfare and safety of
children first.

We are in support with Islington
Council who need foster car-
ers and adoptive families, who
are able to care for children and
young people who can no longer
live with thier own families.

If you would like more informa-
tion and feel you can offer a sta-
ble home and more importantly
support then please call the free
phone no. 0800730428. Further
information can be obtained
from www.islington.gov.uk/fostering.

Thank you for your support.
